Full-time pacing: **3** months
Part-time pacing: **6** months
Part-time pacing: **9** months

Fee **₹66,000**

M1: Intro to Cloud Foundations

- Introduction to Cloud Computing and AWS
- Introduction to AWS AI and ML Services
- Compute and Storage
- Networking Fundamentals
- AWS Identity and Access Management
- AWS Storage and Database Services
- Content Delivery
- Serverless and Container Services
- Security and Compliance in AWS
- AWS Cost Management
- AWS Support and Architecture Best Practices

M2: AWS Cloud Fundamentals 1

- Compute 2
- Networking 2
- Storage 2
- Databases 2
- Security 2

M3: AWS Cloud Fundamentals 2

- Security
- Networking
- Databases and Caching: Developing Modern Applications Using DynamoDB
- Databases and Caching: Exploring DynamoDB Advanced Concepts
- Databases and Caching: Caching on AWS
- Compute: Using Amazon EC2 and AWS Lambda for applications
- Compute: Practice with Container Computing
- Architecting 2: Building Modern, Event-Driven Applications
- Architecting 2: Batch and Real-Time Processing Architectures

Fee **₹78,000**

M1: Intro to Cloud Foundations

▶ Introduction to Cloud Computing and AWS

▶ Introduction to AWS AI and ML Services

▶ Compute and Storage

▶ Networking Fundamentals

▶ AWS Identity and Access Management

▶ AWS Storage and Database Services

▶ Content Delivery

▶ Serverless and Container Services

▶ Security and Compliance in AWS

▶ AWS Cost Management

▶ AWS Support and Architecture Best Practices

M2: Developer Fundamentals

▶ Kickstart Your Python Journey with AI-Powered Coding

▶ Python Programming: Control Flow and Repetitive Tasks

▶ Working with Python Lists and Getting Started with APIs

▶ Python Fundamentals: Dictionaries and Function

▶ File Processing, Error Handling, and Image Analysis

▶ Object-Oriented Programming

▶ Version Control with Git and Remote Collaboration

▶ Persistent Storage with Databases

▶ Document Processing and Cloud Storage with Amazon S3 and Amazon Textract

▶ Event Driven Applications

M3: AI for Developers

▶ Fundamentals of AI & ML

▶ Generative AI, FMs, and LLMs

▶ Basic Prompt Engineering

▶ Implementing AI-Powered Assistant for Business

▶ Developing an AI Application with Amazon Bedrock API

▶ Developing Generative AI Applications on AWS

▶ Using Amazon Bedrock for Data Visualization and Analysis

▶ Getting Started with Langchain

▶ Applying Responsible AI

▶ Governance, Compliance, and Security for Responsible AI

aws
CLOUD INSTITUTE

Cloud Operations Graduate

Fee ₹**78,000**

M1: Intro to Cloud Foundations

▶ Introduction to Cloud Computing and AWS

▶ Introduction to AWS AI and ML Services

▶ Compute and Storage

▶ Networking Fundamentals

- ▶ AWS Identity and Access Management
- ▶ AWS Storage and Database Services
- ▶ Content Delivery
- ▶ Serverless and Container Services
- ▶ Security and Compliance in AWS
- ▶ AWS Cost Management

M2: AWS Cloud Operations 1

- ▶ Logging and Scaling
- ▶ Security, Monitoring, and Compliance
- ▶ Systems Management
- ▶ Scripting
- ▶ DevOps

M3: AWS Cloud Operations 2

- ▶ Introduction to Linux
- ▶ DevOps 2
- ▶ Infrastructure as Code
- ▶ Monitoring and Troubleshooting

aws
CLOUD INSTITUTE
Cloud Developer Graduate

▶ Fee ₹78,000

M1: Intro to Cloud Foundations

- ▶ Introduction to Cloud Computing and AWS
- ▶ Introduction to AWS AI and ML Services

M1: Developer Fundamentals

- Kickstart Your Python Journey with AI-Powered Coding
- Python Programming: Control Flow and Repetitive Tasks
- Working with Python Lists and Getting Started with APIs
- Python Fundamentals: Dictionaries and Function
- File Processing, Error Handling, and Image Analysis
- Object-Oriented Programming
- Version Control with Git and Remote Collaboration
- Persistent Storage with Databases
- Document Processing and Cloud Storage with Amazon S3 and Amazon Textract
- Event Driven Applications

M2: Developer Intermediate 1
- Web Technologies and HTML Overview
- Organizing and Styling HTML Pages
- Building an Interactive HTML Page
- Django Overview and Models
- Django Views and Templates
- Django Administration
- AWS Elastic Beanstalk Python Support
- Deploying a Django Web Application to AWS Elastic Beanstalk
- Modern Application Architecture Overview
- Microservice Data Storage Patterns
- Microservice Deployment Patterns
- Microservice Integration Patterns
- Microservice Integration Patterns: AWS Step Functions
- Serverless Application Deployment Frameworks

M3: Developer Intermediate 2

▶ Capstone Project: Building and Deploying an Appointments Scheduler Application

▶ Developing on AWS

▶ Building the Pets Microservice

▶ Building the Adoptions Microservice

▶ Securing the Application

▶ Adding a Reporting Microservice

▶ Observability and Tracing

▶ Using AWS Amplify Gen 2

▶ AWS Amplify Hosting

▶ Serverless in Practice - Building Real-World Solutions

▶ Expanding Serverless Solution: Multi-Service Integrations
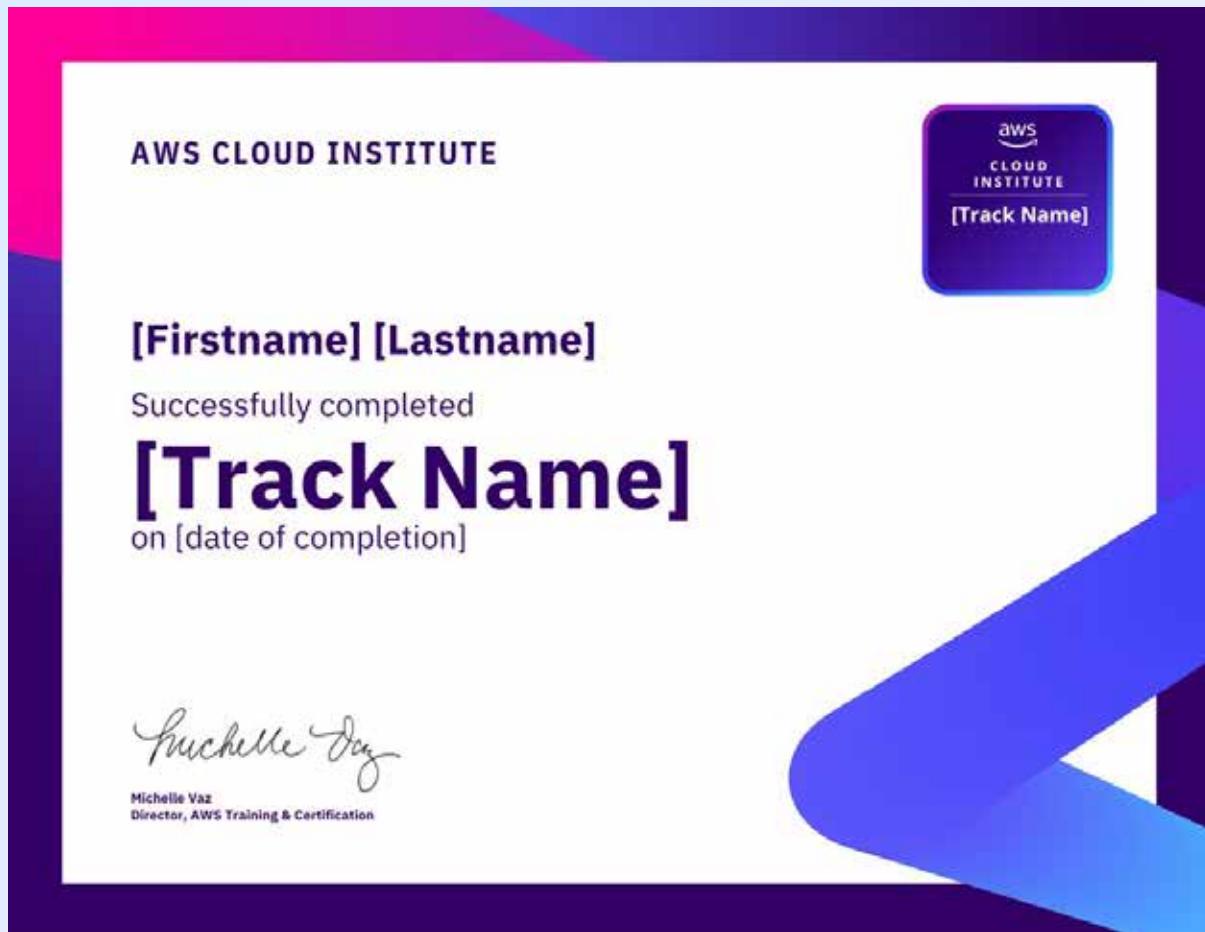

Fee is inclusive of AWS certification vouchers, lab infrastructure, self-paced content and instructor-led training. GST Extra.

Get a Certificate of Completion from AWS Cloud Institute

Why AWS Cloud Institute?

Built by AWS. Powered by TalentSprint.

Role-based, job-ready training

Choose your track, complete training with hands-on labs, and earn industry-recognized AWS certifications.

Structured path to a cloud career

A guided journey with on-demand content, live sessions, and expert mentoring to launch a cloud career.

Build real-world skills

Practical learning through hands-on experience and guided learning that mirrors industry needs.

Career readiness coaching

Get expert guidance on interview preparation and personalized coaching to fast-track job readiness.

Comprehensive training format for high impact outcomes

Job-ready training designed to create impact from day one

Instructor led
Direct engagement to build deep expertise

Experiential learning
Real-world curriculum with hands-on training

Peer learning
Cohort-based and group projects

Corporate readiness
Transition into an in-demand cloud professional

Mentoring
Build confidence and tech career readiness

Career services
Interview prep, placement support, job fairs

TalentSprint is the **exclusive delivery partner** for Amazon Cloud Institute in India

Ideal for

▶ Final-year college students who want job-ready skills

▶ Freshers looking for their first tech job

▶ Early IT professionals who want to grow in their career

▶ Non-tech professionals wanting to switch to tech

</> **No prior IT / Coding experience needed**

Fast-track your career in cloud

In 3 simple steps

Step 1

Begin your AWS cloud journey

Batches starting from **Sep 2025**

Submit

Step 2

300 hours of blended training

- ✓ Full time: 3 months
- ✓ Part time: 6 months
- ✓ Weekend: 6 months
- ✓ Earn completion certificate

Step 3

Job readiness

- ✓ Get free certification exam voucher
- ✓ Earn badges
- ✓ Access job opportunities

Earn industry-recognized
AWS Certifications with each track
